# Head to Head: SyncMail vs. In-house based solution

	SyncMail solution	In-house solutions
Setup	 Instant deployment. No need to purchase and install hardware or software	Take over 30 days to deploy. Need to purchase and install hardware and software
Investment	 No upfront investment and low total cost of ownership	High upfront investment and high total cost of ownership
Maintenance	 24x7 maintenance & support by experts.	Will need to hire in-house IT expertise and unlikely to have 24x7 support.
Redundancy	 Load-balancing over multiple servers means effectively zero downtime	Single point of failure.
Scalability	 Scales with your business	Need to purchase additional servers
Service Level Guarantee	 99.99% service up time guarantee	No service level guarantee

## Why Choose SyncMail?

A perfect answer to the complex challenges & requirements of collaborative enterprise. SyncMail features Groupware, Personal Organizer, Public Folders and advanced security policies, all backed-up by an efficient 24x7 technical support.

### Groupware for Work Collaboration

- ▶ Share personal email folders and contacts, appointments and tasks with co-workers, assign dedicated public folders for co-workers.
- ▶ Shared calendar to allow co-workers to check your availability each time before requesting your attendance in meeting without actually accessing your calendar details.
- ▶ Delegate work to your assistant allow them to view your calendar and reply messages in your name.

### Mobility

- ▶ Push email technology and synchronization of Contacts/Calendar/Task provides road-warriors with instant access to mission critical information such as messages, contacts or appointments.

### Users Features

- ▶ Fast and feature-rich WebMail interface providing over 20 languages.
- ▶ Personal Organizer (Calendar/Tasks/Notes/Journal)
- ▶ Outlook Connector allow synchronization of email, contacts, calendar and task list between Microsoft Outlook & SyncMail

### Sentry EDS

- ▶ Advanced Policy-Based Engine allowing your organization to be flexible in setting up and enforcing email policy
- ▶ Multiple layers of spam and virus filtering engine including award winning Commtouch Recurrent Pattern Detection (RPD)
- ▶ Data Leakage Protection by creating policies on contents and attachments.
- ▶ End User Quarantine Report
- ▶ Email archiving for all users and contents or for specified user(s) and content(s).

### Peace Of Mind

- ▶ 24x7 support by a team of experts in Hong Kong who have multiple years of experience in SaaS.
- ▶ Powered by TAsia, a member of Shun Hing Group, clients include the Hong Kong Government and industry-leading companies
- ▶ Ease of migration from any third party email server

### Service Level Guarantee

- ▶ 99.99% service up time guarantee
- ▶ 98.5% spam filter rate guarantee
- ▶ 100% virus filter rate guarantee
- ▶ 0.0003% false positive rate guarantee
